Hi Olav Aasen,

This email is to inform you that Domstoladministrasjonen has been selected for a Microsoft License Review, which includes an assessment of license inventory. This approach is part of Microsoft's continued effort to ensure that customers are correctly licensed. We are usually conducting such engagements with all of our customers; as a minimum once every three years. We will be financing this project, which will be delivered by one of our SAM Gold Partner Livingstone. You will find attached the official letter that we invite you to read carefully.

We have learned that this type of review normally takes 4-12 weeks depending on the complexity of your organization, and on your availability. The estimate closing date for this review is then mid-December this year. We advise you to appoint someone in your team who will be in charge of this process (if not you directly).

You will be contacted by the partner directly to schedule a Kick-off meeting. In the meantime, please do not hesitate to contact me and/or Dirk for any questions or remarks regarding this approach.

Best regards,

Pauline LEFEVRE
